The TRU product line brings together high performance filter technology with the latest in universal and custom earpieces to provide comfortable, discreet hearing protectors. TRU hearing protection has been critically tuned to reduce noise exposure yet maintain sound quality across the sound frequency spectrum. They are ideal for listening to live music at concerts and nightclubs, sporting events, air travel, movies, and other recreational activities that have noise levels that can cause discomfort or permanent hearing damage.

WHICH TRU TECHNOLOGY IS RIGHT FOR ME?

TRU Custom

With a low profile and selection of four interchangeable filters, TRU Customs allow you to protect your hearing and select attenuation to match your listening style. Each custom earpiece is precisely fitted to your ear canal, providing maximum comfort, discreet size, and incredible clarity. TRU Customs are available from your local hearing care professional.

TRU Universals

PROFESSIONAL

The TRU Professional offers excellent protection and comfortable long-term wear for on the job scenarios, as well as every day use where speech or music clarity is a must. Perfect for performing musicians, sound engineers, DJs, night club staff, and even dental professionals. The TRU Professionals can also be upgraded to custom earpieces for an additional fee.

RECREATIONAL

Westone's TRU Recreational is a great off-the-shelf solution that provides a comfortable and tuned listening experience for everything from concerts to movie attendance, and any other situation where mid level noise exposure exists. The TRU WR20 offers an average attenuation of 20 dB and NRR 12.
